| <b>Earnings Per Share (EPS):</b> The company's turnover has increased noticeably as a result of the import restrictions for finished products. Conversely, the gross margin was reduced to about 9% due to increased material costs. Additionally, the bottom line profitability was further reduced by increased financial charges and tax payments. Therefore, the impact of increased turnover has not been reflected in the EPS. |                                                                                |                                      |                                      |
